FULLY ADJUSTABLE SUSPENSION

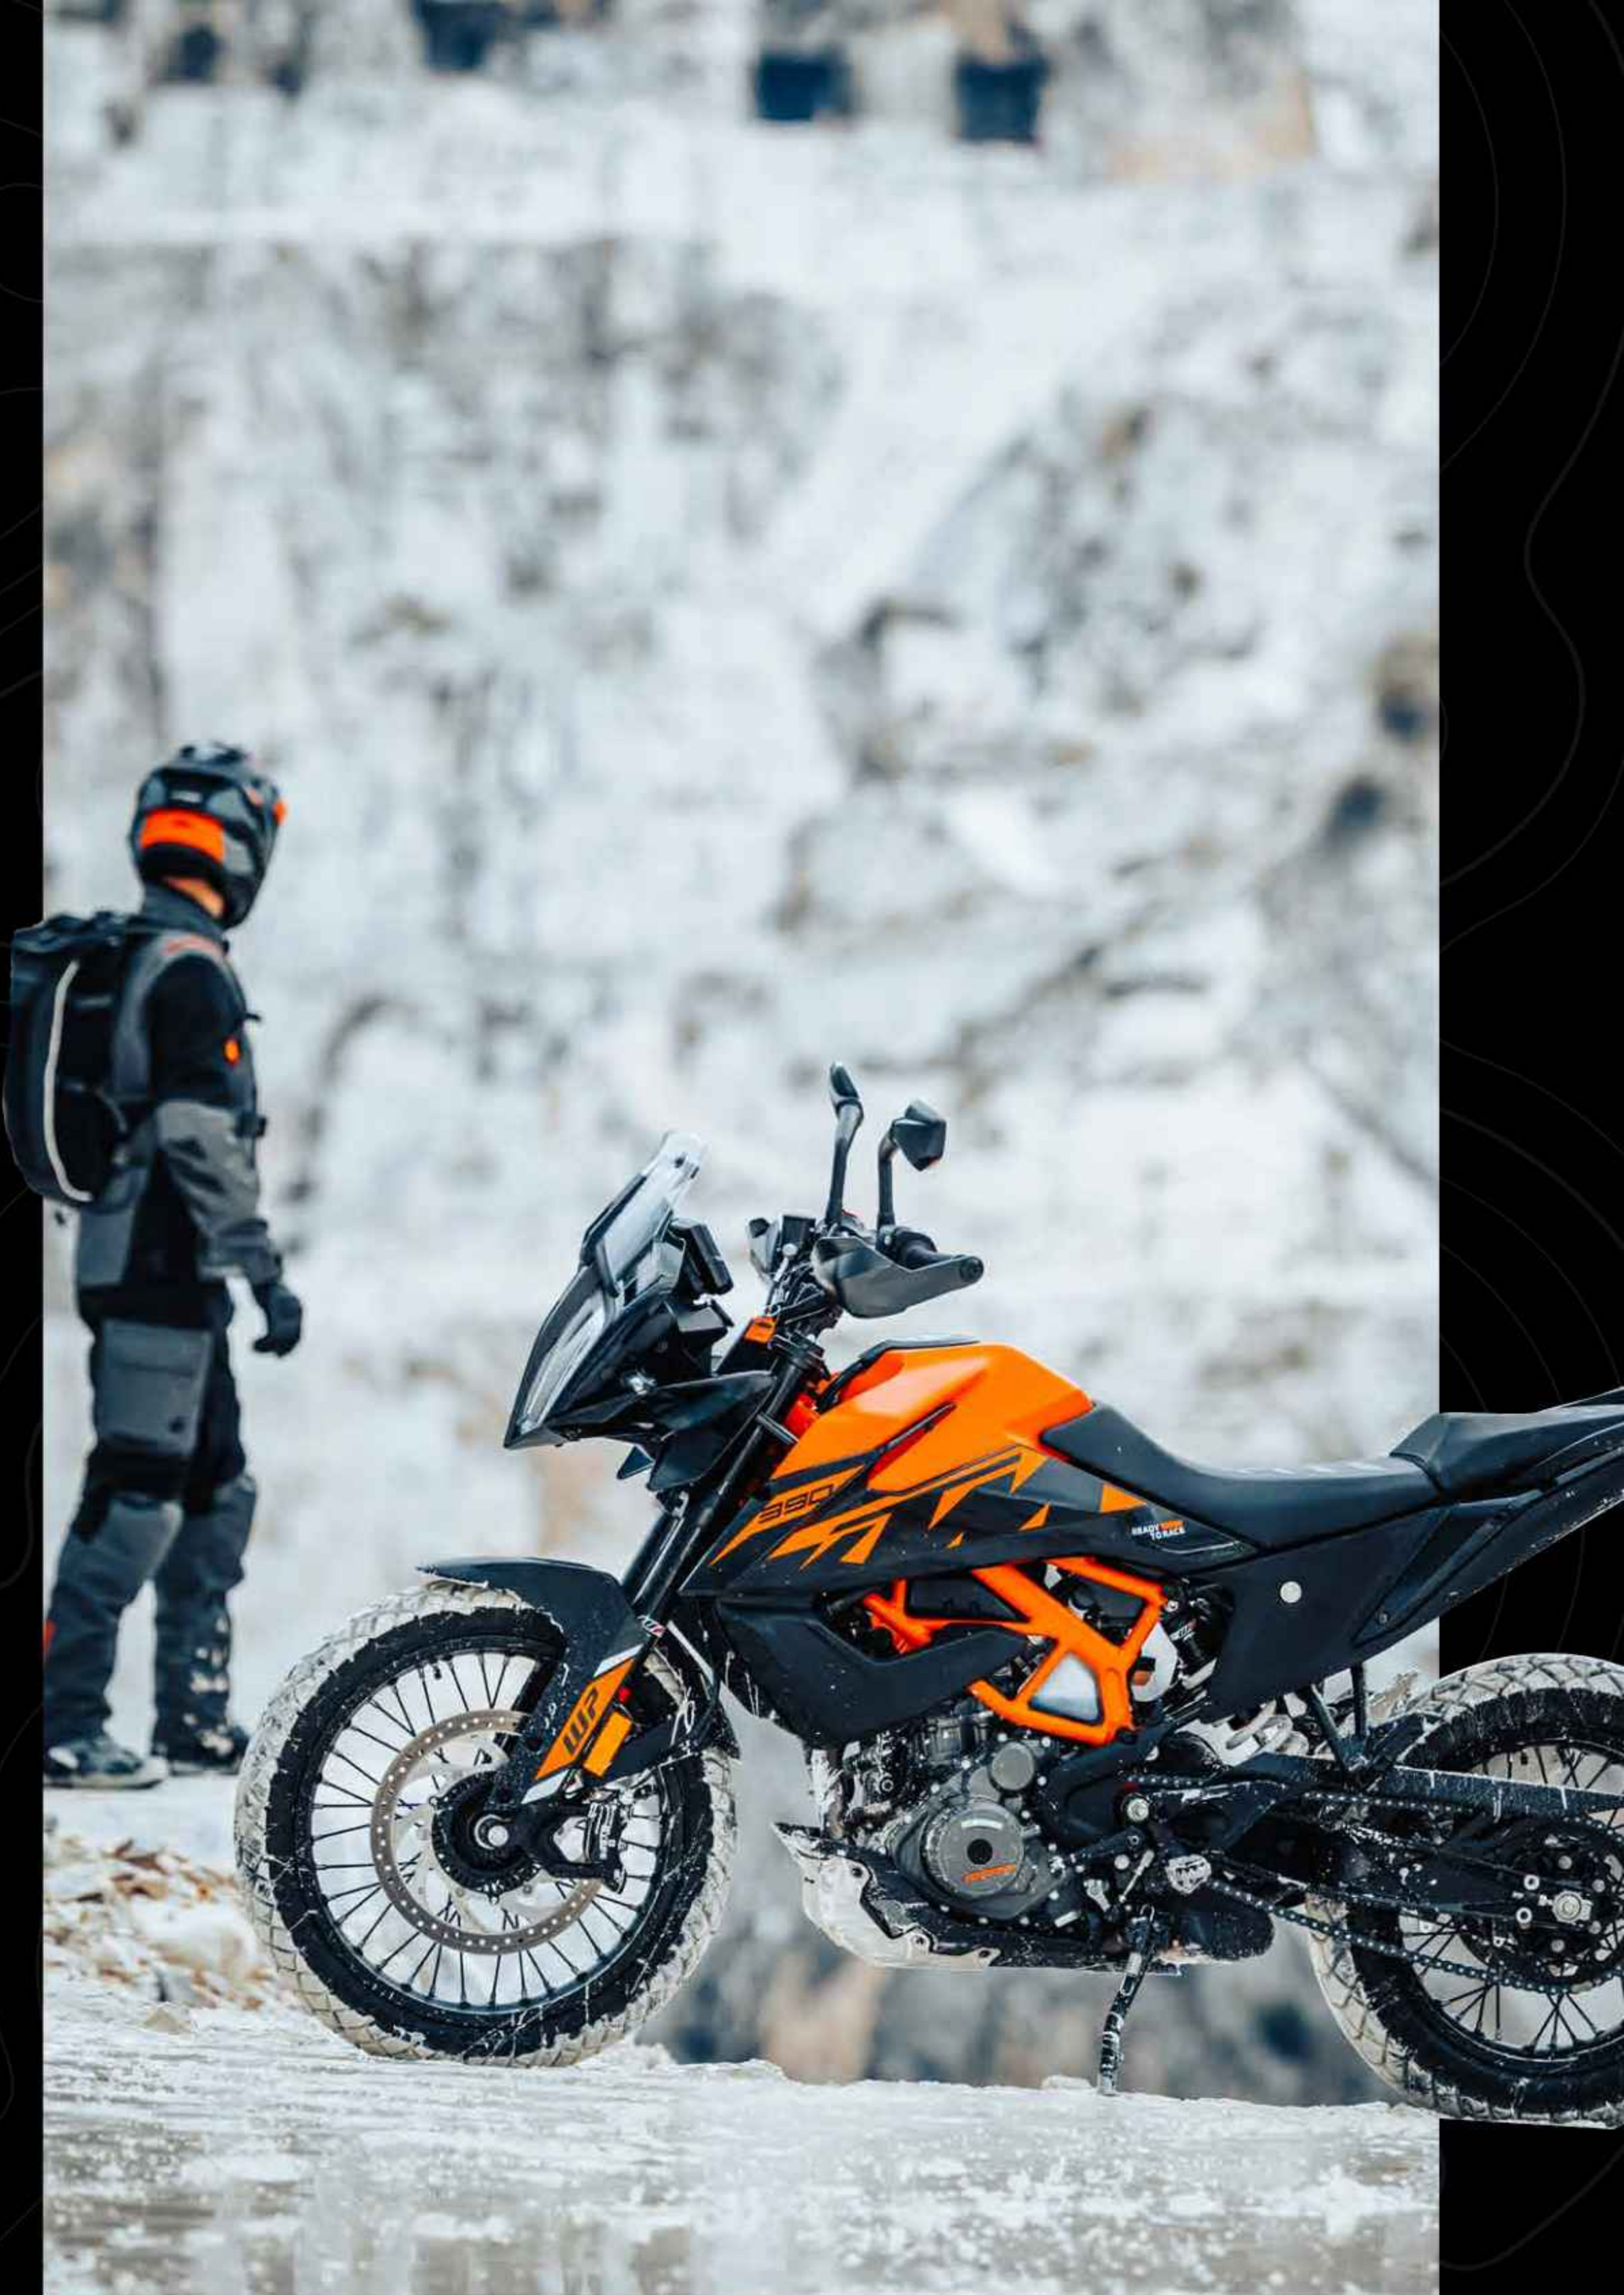

With many years of development in the toughest terrain, the **2023 KTM 390 ADVENTURE** boasts WP APEX suspension at each wheel. Both the front USD and rear monoshock get an adjustable spring preload and rebound damping, it can also be fine-tuned to suit the rider, conditions, & nature of adventure. This provides a best-in-class handling package that is ready to tackle any adventure.

FEATURES	390 ADV SW	390 ADV	390 ADV X

SPOKE
WHEELS

HEAVY DUTY

The **2023 KTM 390 ADVENTURE** boasts heavy-duty spoked wheels at each end, making it extremely ready to tackle the toughest of dirt trails. This spoked setup perfectly compliments the offroad-orientated tyres to provide unmatched confidence when charging off into the wilderness.

TRACTION IN ALL CONDITIONS

Motorcycle Traction Control (MTC) on the **KTM 390 ADVENTURE** is aided by 3D Inertial Measurement Unit (IMU). This Lean-angle sensitive traction control system reacts when the instant rear wheel rotation speed becomes disproportionate to the riding situation and optimizes wheel spin depending on your selected ride mode.
