EXPLORE THE UNKNOWN AND BEYOND.

The known, the unknown, the roads and off-roads, all await you. Feed your restless spirit with these agile single-cylinder, sporty machines with the proven performance and attitude of a KTM. Inspired by the KTM 450 Rally, the KTM ADVENTURE range has adopted concepts such as versatile ergonomics and class-leading electronics, all loaded in a comfortable and lightweight package for those looking for an adventure overdose.

RALLY-INSPIRED DESIGN

The KTM ADVENTURE range is inspired from an illustrious decade-long experience in the Dakar Rally and developed using the same design principles. These motorcycles incorporate many traits from their bigger rally counterparts.

The ultralight steel-trellis frame combined with a slim and functional build makes for a purposeful form factor, giving the rider all the control and confidence needed. It's no wonder KTM has earned its name as the undisputed King of Dakar.

CLASS-LEADING PERFORMANCE

Boasting liquid-cooled, single-cylinder, 4-stroke engines, the KTM ADVENTURE range has some of the most powerful engines and the best power-to-weight ratios in their class. With an ultra-light steel trellis frame and superior ergonomics, these motorcycles are always ready for an adventure and are a raw example of supreme versatility in motion.

FEATURES	ADV 390	ADV 250
TORQUE	37 Nm	24 Nm
ENGINE CAPACITY	373.27cc	248.76cc
POWER	43.5 PS	30 PS
RIDE-BY-WIRE	✓	

BUILT FOR ADVENTURE

ERGONOMICS

The ergonomics and design of the KTM ADVENTURE range invites riders to do one thing - adventure. These motorcycles are inspired by the narrow, compact design and captivating looks of larger KTM ADVENTURE models with a form factor built for dynamic movement and comfortable riding.

With a 14.5L fuel tank that offers an autonomy of over 400 kms, a comfortable seat and a windshield for extra protection, toothed foot pegs and an upswept exhaust, these machines pack the ergonomics of a larger motorcycle in a lightweight and accessible package.

ADVENTURE WITH EASE

The KTM ADVENTURE range comes with a high spec WP suspension package. In the front, there is a 170mm long travel USD fork, where as the rear comes with 177mm wheel travel WP APEX – monoshock absorber, with preload adjustability. These work together to provide a planted and secure sensation on the street and even more confidence when the surface alters from tarmac to trail.

STATE-OF-THE-ART TECHNOLOGY

ELECTRONICS

Whether you're looking to open the throttle and escape on an adventure or casually add some off-roading miles to your ride, the KTM ADVENTURE range has the ability to do it all. The Rider Aids and other technical trimmings play a vital role to give the rider an exhilarating adventure experience.

The updated electronic features such as the lean angle sensitive Motorcycle Traction Control (MTC) and an innovative Cornering ABS make the KTM 390 ADVENTURE the perfect combination of power and play.

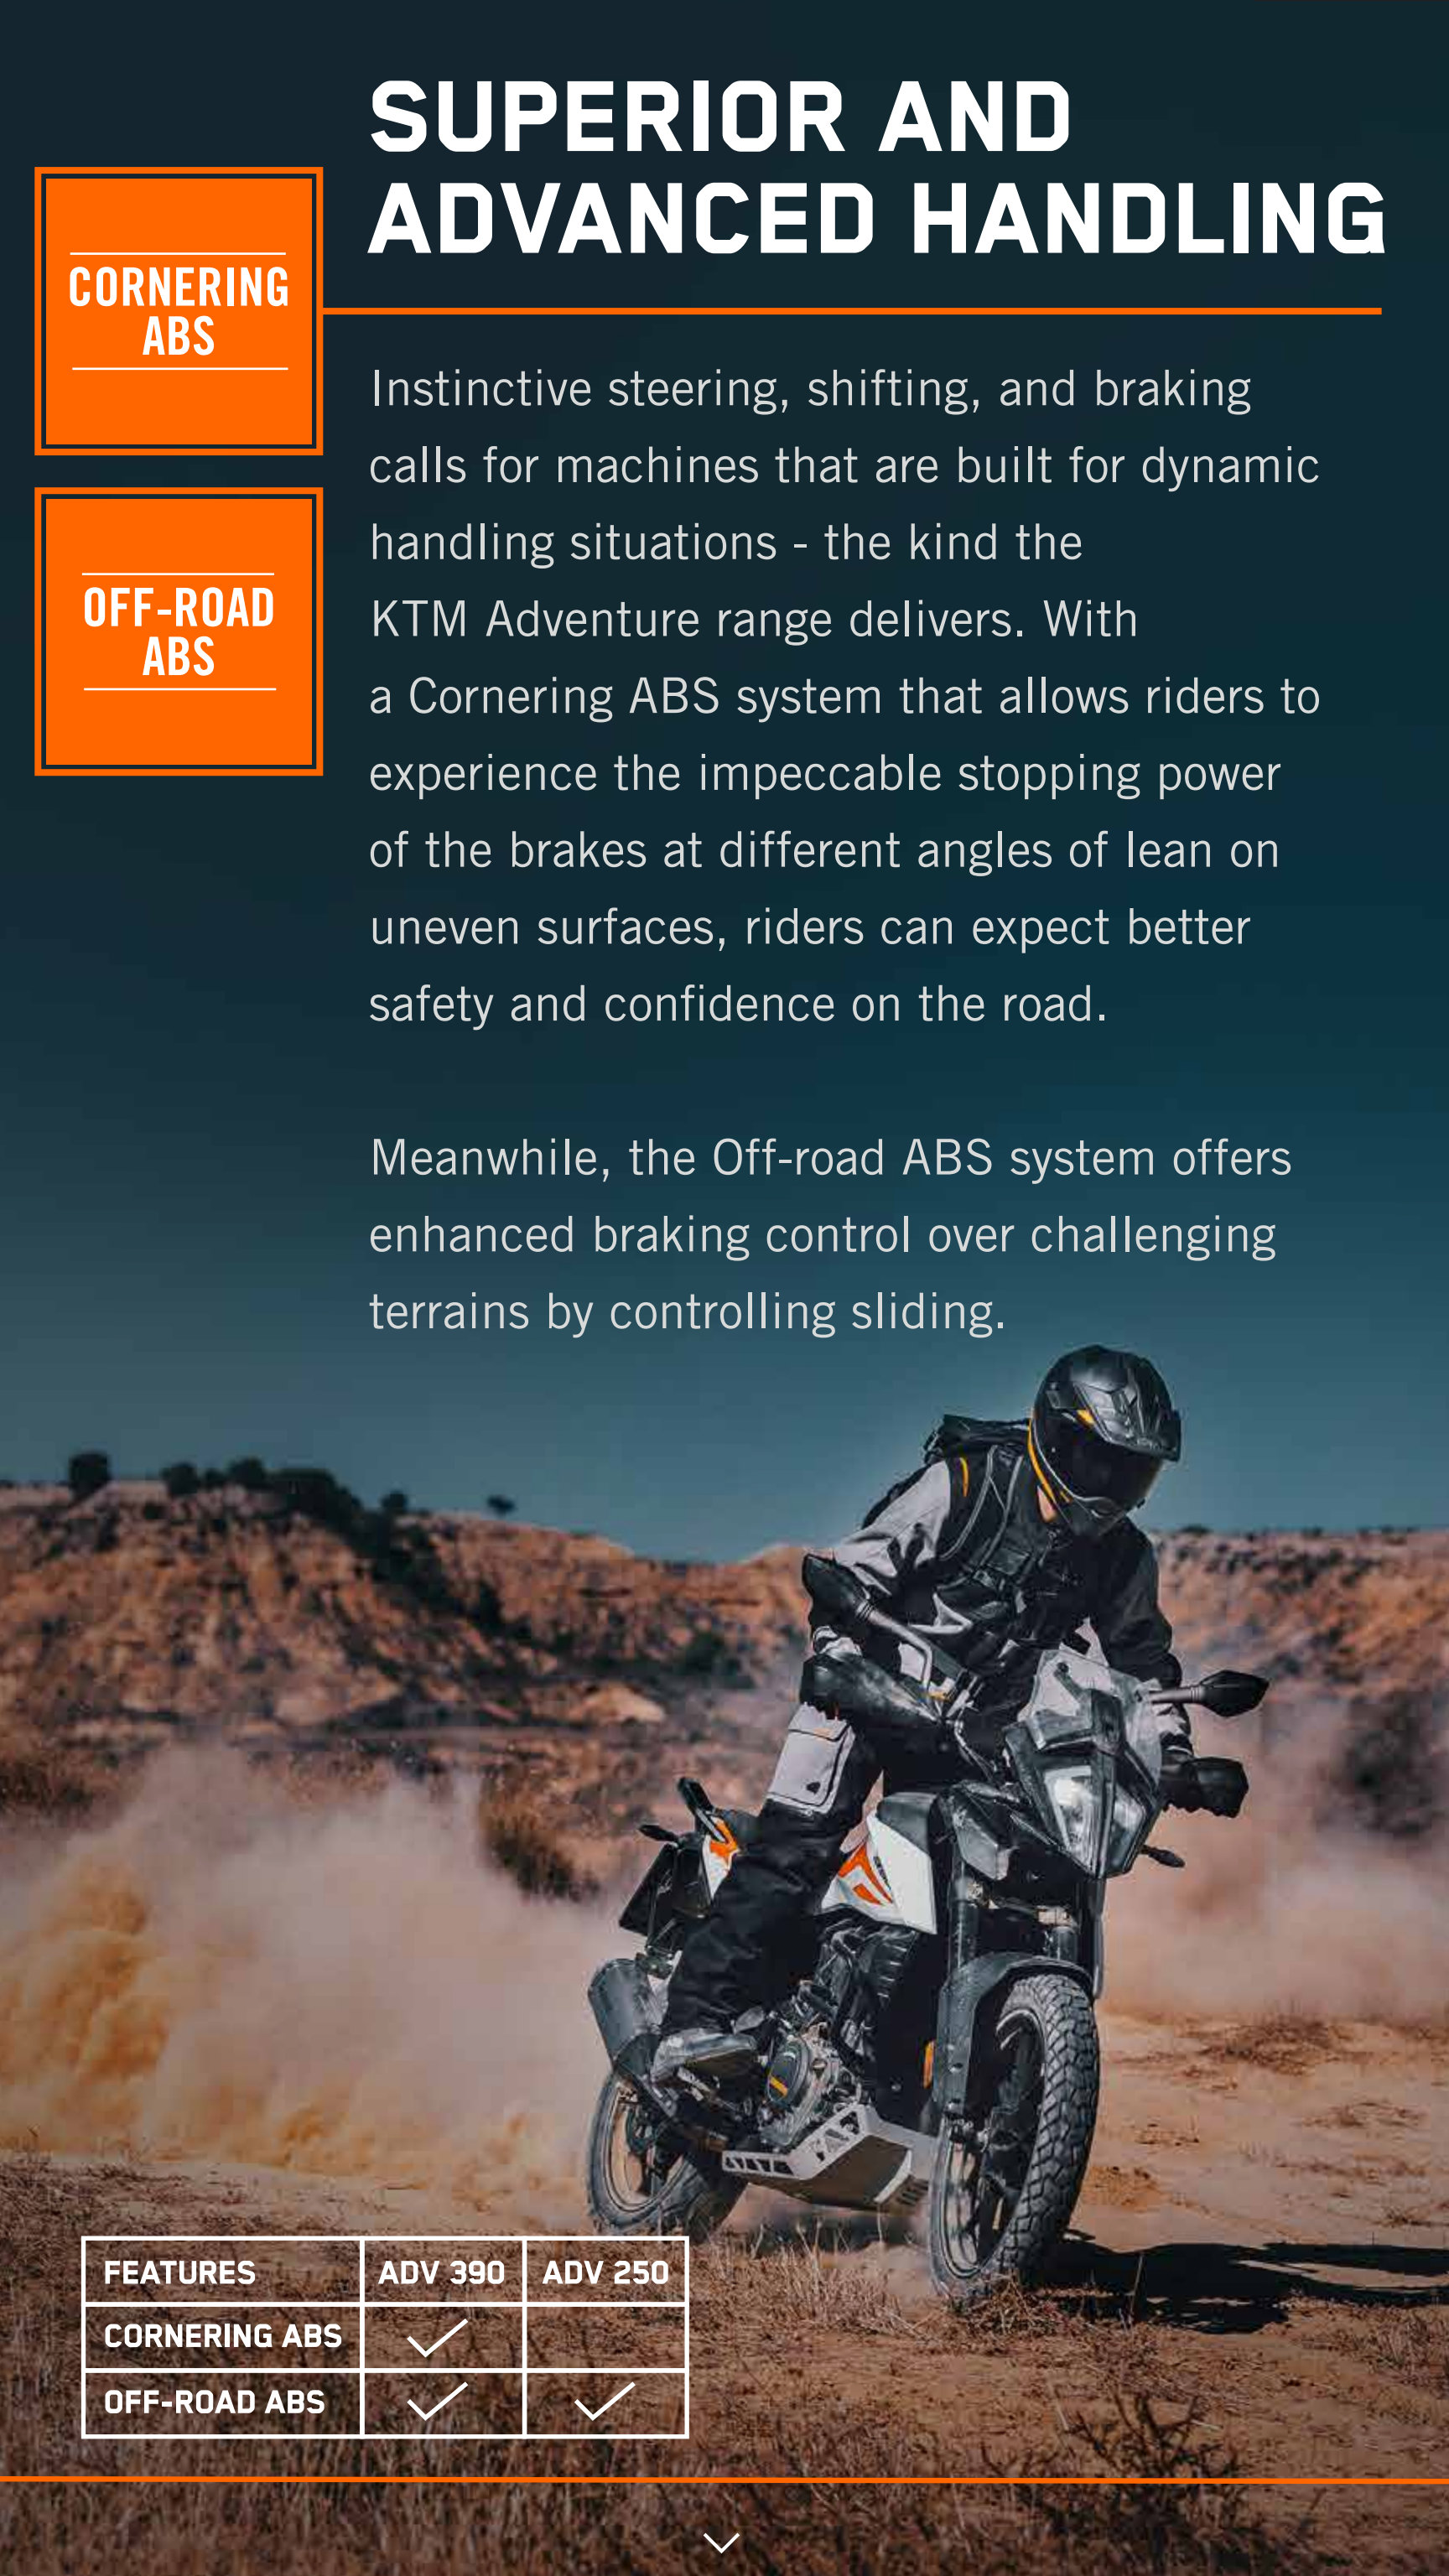

SUPERIOR AND ADVANCED HANDLING

CORNERING
ABS

OFF-ROAD
ABS

Instinctive steering, shifting, and braking calls for machines that are built for dynamic handling situations - the kind the KTM Adventure range delivers. With a Cornering ABS system that allows riders to experience the impeccable stopping power of the brakes at different angles of lean on uneven surfaces, riders can expect better safety and confidence on the road.

Meanwhile, the Off-road ABS system offers enhanced braking control over challenging terrains by controlling sliding.

FEATURES	ADV 390	ADV 250
CORNERING ABS	✓	
OFF-ROAD ABS	✓	✓

SHIFT QUICKER AND SMOOTHER

QUICKSHIFTER+

With the addition of the QUICKSHIFTER+, the KTM 390 ADVENTURE gives you the thrill of riding on and off the grid in a flash. With clutchless gear shifting ability, this motorcycle makes shifting up and down the drive train seamless under any terrain and specific load conditions.

RULE EVERY TERRAIN

MTC

Looking to take on a world filled with uncharted territories and hidden challenges? The KTM ADVENTURE range is equipped for the task.

The first-in-class Motorcycle Traction Control (MTC) system ensures maximum control at lean angles while the throttle valves control engine output and rear-wheel slippage.

The MTC system offers a firm grip under any condition and is the perfect fix for every adventure-holic.

Available in KTM 390 ADVENTURE

STAY CONNECTED

MY RIDE

Turn on the navigation app using the KTM MY RIDE system and stay connected at all times. Through a bluetooth connection to your smartphone, maps and directions for turn-by-turn guidance can be downloaded. Additionally, phone calls and music can also be controlled via the TFT.

KTM 390 ADVENTURE HIGHLIGHTS

- // Distinctive Rally-derived KTM design
- // Ultra-lightweight steel trellis frame
- // DOHC engine with 32 kW (43 hp) & 37 Nm with Electronic Fuel Injection & Liquid Cooling
- // 14.5 liter tank offering more than 400 km of range
- // 43 mm WP APEX 170 mm travel upside-down front fork
- // Cutting-edge BYBRE brakes [320 mm / 230 mm]
- // Dual purpose Metzeller Tourance Tyres
- // Rider Aids: Ride-By-Wire, Power Assist Slipper Clutch, Motorcycle Traction Control, Cornering ABS, Off-Road ABS, Quickshifter+, KTM My Ride
- // 12V power outlet, adjustable windscreen and robust engine guard
- // Toothed foot pegs and upswept exhaust

KTM 390 ADVENTURE SPECIFICATIONS

COLOUR OPTIONS	White and Orange
ENGINE TYPE	Single Cylinder, 4-Valve, DOHC, F.I.
DISPLACEMENT	373.27 cc
BORE / STROKE	89 mm x 60 mm
POWER	43.5 PS (32 kW) @ 9,000 rpm
TORQUE	37 Nm @ 7,000 rpm
FUEL INJECTION	Bosch EFI
LUBRICATION	Wet Sump, Forced Lubrication System
COOLING	Liquid-Cooling
COMPRESSION RATIO	12.88 : 1
CLUTCH	PASC™ Antihopping Slipper Clutch
FRONT SUSPENSION	WP APEX 43 mm USD Front Forks
REAR SUSPENSION	WP APEX Monoshock with 177 mm travel
FRAME	Split Steel Trellis Frame, Powder Coated
SUBFRAME	Steel Trellis, Powder Coated
BRAKES	320 mm Front, 230 mm Rear
FUEL TANK CAPACITY	14.5 L
GROUND CLEARANCE	200 mm
SEAT HEIGHT	855 mm
KERB WEIGHT	177 kg
RIDER AIDS	Motorcycle Traction Control, Cornering ABS, Ride-By-Wire, Off-Road ABS
STARTER / BATTERY	Electric Starter / 12V, 8 Ah VRLA Battery
HEADLIGHT	LED, 24W/36W
INSTRUMENT CLUSTER TYPE	TFT
12V SOCKET	YES
